NEW-TO-YOU SPECIAL OFFERS

You are considered a New Client to the service, even if you have been with us for other services/providers. For example, if you are a current tox & filler client, but have never tried out our facials, we will honor this offer -- and reverse.

See website for details.

Cancellation Policy

We understand the need to cancel or move an appointment, however to protect our providers and be courteous to others clients that may be on our waiting list, we ask that you cancel or reschedule within 24 hours (48 hours with Tiffany) or a \$50 fee will be charged to the card on file. The same applies to appointments that are missed without notice.

We proudly accept

Filler

We carry all brands of dermal filler.

Full syringe	\$599/syringe
Half Syringe	\$349/half syringe

PRP Treatments

Platelet Rich Plasma can be used to treat are like tear troughs, temples, neck lines, smile lines, hands, the scalp for hair restoration, etc. Results last about 3 months.

PDO Threads

PDO Threads gently lift and firm sagging skin, stimulate collagen production, and improve skin texture for a rejuvenated appearance.

Renuva

Renuva restores age-related volume loss, adds contour and smooths irregularities. Over time, Renuva is replaced with your body's own fat – leaving you with lasting, age-defying results! Areas we can treat: Face, buttocks, breast, and more!

Fat Dissolving

PC/DC (or Kybella) targets fat in the submental area or under the chin, offering a non-surgical approach to achieving a more defined jawline. We can also treat other areas like bra bulge, undesired love handles or upper/lower back fat, abdomen, thighs, or upper arms.

Biostimulators

Biostimulators like Sculptra and Hyperdilute Radiesse are injectable treatments that work by stimulating your body's own collagen, leaving you with natural looking results and lasting longer than dermal fillers. Biostimulators can be used to tighten skin, hydrate skin, mitigate facial aging, and achieve long-term rejuvenation.

Hair Growth Treatments

We offer a variety of treatments that aim to restore hair and improve the overall appearance of those experiencing hair loss.

Sclerotherapy

This treatment involves injecting a solution directly into veins, causing them to fade from view. Whether you'd like to target spider veins or larger varicose veins, sclerotherapy offers a non-invasive solution with minimal discomfort and downtime.

Book consult for individual pricing. Consult fee \$50.
